

Virtual Team Trust Accelerator

PreludeSuite
Better teamwork – faster

The Prelude Suite™ is a fast, fun, psychologically safe way for virtual team members to grow from *Me* to *We*.

3 Steps to Better Performance

1. TUNE-UP

Team members complete a unique self-assessment called iStar™. This generates a report and digital badge. Participants share their iStar Stories™ to build new awareness and understanding of their team's diversity and complementary and shared strengths.

2. PRACTICE

Teams digitally co-create individual and group symbols of excellence. Through this, teams practice key soft skills essential to performance through an interactive and facilitated virtual exercise.

3. PERFORM

Using the Prelude Suite Team Alignment Plan™, teammates can effectively bridge the soft skills identified, with their work team's deliverables and goals.

- ✓ Improved interpersonal skills
- ✓ Greater appreciation of diversity
- ✓ Strengthened trust
- ✓ Enhanced team spirit
- ✓ More positive emotional climate
